

## THE KIDS' FUND

All children deserve a chance to grow up healthy, safe, and supported by their families and community. The Brookline Center Kids' Fund safeguards the well-being of children in our community, sustaining critical services for young people experiencing mental health conditions, emotional difficulties, or behavioral challenges.

The Brookline Center's high-quality programs and services for children and teens prevent mental health issues from defining a young person's life. With timely care, we help children regain health, build resilience, and discover brighter futures.
